

Town of Charlton  
758 Charlton Road  
Charlton, New York 12019  
Telephone: 518-384-0152  
Fax: 518-384-0385

### **Emergency/911 phone information**

The Saratoga County Office of Emergency Services has primary responsibility for overseeing and administering the County emergency preparedness activities. The County can transmit emergency messages through the reverse 911 system. This service enables the County to notify residents of emergencies which are deemed so by the County or individual Towns. Recently the Town had a message sent out about auto break-ins in the West Charlton area. If you did not receive the call, you can call the County to make sure that they have your contact information. If you would like to verify your 911 address or phone number, you can call 885-2243.

The County has a 911 listing of residential phone numbers, however, you now have the ability to receive emergency messages to your cell phone or email address. You may register your email address or cell phone number by calling 885-2243 or on the County's website. Go to [www.saratogacountyny.gov](http://www.saratogacountyny.gov), and under departments, click on Office of Emergency Services, under Additional information you will see Register Cell Phones for Reverse 911.
